### Old Business:

- Comprehensive Plan (Jason Grueneberg)
  - Groundwater Study by UW Madison was presented and discussed.
    - Jason will present results at the Village Open House
    - In summary the study shows that with the current projected recharge rates the Village of Hewitt could easily double in size without any shortage of groundwater. The Comprehensive Plan will consider:
      - Recommended locations for residential growth that will minimize groundwater recharge.
      - Recommend a subdivision ordinance to address green space
